CeCe Bramlett
San Diego Chapter of APA
PO Box 881523
San Diego, CA 92168

Dear CeCe,

After twenty years, Just in Time has entered an exciting new phase of growth and influence – Leading Change! This is why we're especially grateful for the recent investment of \$300 in the JIT mission.

As we shared in our recently published book, *Life Changing Choices: The 7 Essential Choices at the Heart of Transformational Change for Foster Youth and Your Community*, Leading Change means: deepening our services by reaching and serving more youth throughout San Diego County; influencing the current systems of foster care and juvenile justice by elevating the voices of those with lived experience; and duplicating our community-based model by scaling and sharing with other cities and states so that young people across the country can benefit from a Caring Community.

Because of you and the San Diego Chapter of APA, we can make major strides towards our three goals as we continue empowering youth to succeed, despite increased challenges in housing access, inflation's impact on budgets, and the challenges of maintaining positive mental health.

On behalf of the entire staff at JIT, thank you for helping us change the world . . . one grateful and inspired youth at a time,

Thanks again for help of our community

Don Wells
Chief Empowerment Officer

P.S. Thank you for your continued support of our young people. Caitlin mentioned how much she enjoyed your visit last week.
